DETAILED ACTION

1. Claims 1-67 are pending.
2. Amendment filed 06/28/2006 has been received and considered.

Claim Objections

3. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claim 26 (**the second claim 26**) has been renumbered claim 29.

Terminal Disclaimer

4. The terminal disclaimer filed on 06/28/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 09/916397 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

5. Claims 1-67 are allowed.

6. The following is an examiner's statement of reasons for allowance: Based on the correct filing of a terminal disclaimer the obvious type double patenting rejections have been withdrawn. Furthermore, Applicant's argument that the claims contain the limitation, allowed in 09/916397, of storing extracted data in extract stores with respective security levels is persuasive. Therefore, claims 1-67 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
